

# PREPARING A CARBON INVENTORY

This course is for anyone who wants to learn or upskill their technical capacity in Greenhouse Gas Emissions Inventory development. The workshop will give you the tools and know-how in developing and improving the process of preparing sound GHG inventories.

It will give you an overview of ISO 14064-1:2018, an international standard that specifies principles and requirements at the organisation level for quantification and reporting of greenhouse gas (GHG) emissions and removals. Similarities and differences between the ISO 14064 and the Greenhouse Gas Protocol.

You will learn about what the recently updated ISO 14064 standard covers and guide you through the changes:

- preparing audit reports and opinions Boundary setting and consolidation approaches
- Inventory development and structure
- Emission Sources and classification under the updated ISO 14064 standard
- Audit requirements for verification of your inventory
- Common pitfalls, errors and how you navigate your team to get the data you need to make informed decisions and take action on “SDG 13 – Take urgent action to combat climate change and its impacts”.

## Certification

This training prepares candidates for our Carbon Auditor Certification <https://cep.org.nz/certified-carbon-auditor/>.  
*NB: Accreditation fees are to be advised and not included in Training fees.*

## Online Information & Registration

<https://www.cep.org/details/carbon-auditor-training/>

*Brought to you by CEP in association with Toitū Envirocare.*

## Online Training

### *Dates*

**24 & 25 November 2020**  
*(Tue & Wed)*

### *Course Times*

**Day 1 9.00am-12.00pm**  
**& 1.00-4pm**  
**Day 2 9.00am-12.00pm**

### *Trainer*

**Ronja Lidenhammar**  
*(Toitū Envirocare)*

**CEP Member**  
**\$895+GST**

**Non-Member**  
**\$1,150+GST**
